

Cirro use the tried and trusted "Cirrus" system which has been creating a fine and constant mist since 1989 for the Film, Television, Concert Touring, Theatre Productions and Product Launch Industries. The Cirro range of mist machines have been specifically developed to meet the needs of Lighting Designers, Lighting Directors and Cinematographers to produce an atmosphere to register beams and shafts of light or colour without distorting the image, eliminating the need for conventional smoke or fog machines and fans to produce the desired effect. We have improved the duration of time the effect will last and the efficiency of fluid use, this eliminates residue.

LEADING LIGHTS IN VISUAL TECHNOLOGY

CIRRO MK 3

CIRRO STRATA CS6

CIRRO MK 3 FEATURES

- ★ Radio Remote
- ★ Removable Tank (Hose not supplied as standard)
- ★ Low fluid consumption (50ml per hour)
- ★ Maintenance free compressor
- ★ Fan assisted output when used as a one part system
- ★ Road Case as standard

CIRRO MK 3 SPECIFICATIONS COMPLETE SYSTEM

Total Weight and Size 70 Kgs
 Height: 565mm Width: 420mm Length: 850 mm
 Power: 220/240v ac 600 watts 50 Hz

The highest fine mist output machine currently available, ideal for Stadium or Arena Concert Tours and Large Film and Television Studios. Effortlessly fills venues or areas with a beam enhancing mist. This makes shafts of light visible to the eye or camera, without obscuring the visual image with fog or smoke.

For ease of control this machine has a radio remote pendant to switch the system on or off to achieve the desired level of mist.

CIRRO STRATA CS6 UNIQUE FEATURES

- ★ Sealed tank for transport
- ★ Output silencer
- ★ Compact two-part system (hose not supplied as standard)
- ★ Low fluid consumption (35ml per hour)
- ★ Maintenance free compressor
- ★ Fan assisted output when used as a one part system
- ★ Road Case as standard

CIRRO STRATA CS6 SPECIFICATIONS COMPLETE SYSTEM

Total Weight and Size 26 Kgs
 Height: 330mm Width: 310mm Length: 530 mm
TANK ONLY Total Weight and Size 10 Kgs
 Height: 330mm Width: 310mm Length: 235 mm
COMPRESSOR Total Weight and Size 16 Kgs
 Height: 330mm Width: 310mm Length: 330 mm
 Power: 220/240v ac 300 watts 50 Hz

The new Strata CS6 supersedes the Cirro Micro Mist. We have increased the mist output, and reduced the noise level. If available space or power and noise is an issue we have invented the two part case, simply connect a hose between the conveniently sited compressor and remote the tank via an air hose to the required area.

Ideal for Film and Television Studio Locations, Concert Tours, Theatre, Clubs and Discos.

All Cirro mist systems are COSHH and CE tested and approved. They use a pharmaceutical odour free fluid.

Because the Cirro mist systems use the fluid efficiently and our mist has superior hanging qualities, constant refilling is not necessary. Level indicators are standard on all our machines.
